**BOSTON
UNIVERSITY**

Application Essays

Prompt 1: Boston University is dedicated to our founding principles: "that higher education should be accessible to all and that research, scholarship, artistic creation, and professional practice should be conducted in the service of the wider community—local and international. These principles endure in the University's insistence on the value of diversity in its tradition and standards of excellence and its dynamic engagement with the City of Boston and the world." With this mission in mind, please respond to one of the following two questions in 300 words or less:

Option A: Reflect on a social or community issue that deeply resonates with you. Why is it important to you, and how have you been involved in addressing or raising awareness about it? (300 words)

Option B: What about being a student at BU most excites you? How do you hope to contribute to our campus community? (300 words)
